SUPPLEMENT TO
REPORT

50X1-HUM

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. The installation of equipment for the steam power station at Madjari (suburb of Skoplje), begun by Czechoslovak specialists in 1946, was completed in the latter part of July 1949 by Yugoslav engineers from Rade Koncar and the Skoplje Metallurgical Works under the direction of Engineer Dimitar Grcev. The station was placed in commission on 30 July 1949.
2. The following hydro-electric plants are under construction in Macedonia:
 - Sapuncica - 35 percent completed
 - Pesecani - 50 percent completed
 - Desnica - 68 percent completed
 - Zrnovci - 30 percent completed
3. The largest power plant known is the Mavrovo hydro-electric combine consisting of five hydro-electric stations. The output of this combine, which has been one third completed, will exceed the total pre-war production of all electric power stations in Yugoslavia.
